

Building a simple EasyVoter activity

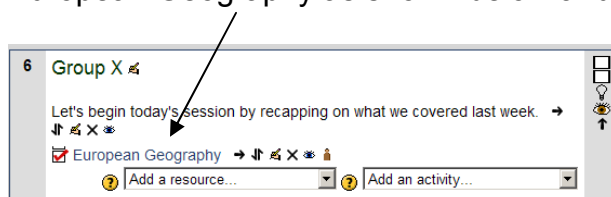

Step 1. Select EasyVoter from the Add an activity drop down menu

Give it a Name (for example European Geography) and provide a short description in the information section. Choose the number of participants and **Save and return to course.**

Step 2. From the course homepage click on to the quiz name – in this case European Geography as shown below and **Edit Slides.**

Step 6 – Now invite the student to click onto the quiz link and select **Start**.

You may be presented with a first screen similar to the one below i.e. the first information slide.

You now have complete control over the student desktop view. This means that you can force each question onto the student desktop and view responses through the graphical presentation shown below.
